Morris' Text-Book of Anatomy

EDITED BY HENRY MORRIS, F. R. C. S.,
Surgeon to, and Lecturer on Anatomy at Middlesex Hospital.
Assisted by J. Bland Sutton, F. R. C. S., J. H. Davies-Colley, F. R. C. S.,
W. J. Walsham, F. R. C. S., H. St. John Brooks, M. D., R. Marcus Gunn,
F. R. C. S., Arthur Hensman, F. R. C. S., Frederick Treves, F. R. C. S.,
William Anderson, F. R. C. S., Arthur Robinson M. D., M. R. C. S.,
and Prof. W. H. A. Jacobson.

With an especially valuable section on the

Anatomy of Circulation,

Prepared by Wm. J. Walsham, F. R. C. S., author of
"Surgery: Its Theory and Practice."

A complete systematic treatise, including Special Sections on
Surgical and Topographical Anatomy, the Skin, and Ves-
tigital and Abnormal Structures Second edition
Enlarged and improved. One Royal Octavo
Volume of 1274 pages. 790 Illustrations,
of which 214 are in color

CLOTH \$6; LEATHER \$7; HALF RUSSIA \$8; NET
THUMB INDEX IN EACH COPY.

In the second edition of this standard text-book the authors have successfully presented a yet more perfect Text-Book of Anatomy, useful alike to the student and, as a work of reference to the practitioner. This new edition has been thoroughly and carefully revised, a large part of the text has been rewritten, and two entirely new sections have been added. New drawings have been made at a cost of nearly \$1000. Many of the features that formerly proved so acceptable, such as the paragraphs on variations and abnormalities, have had great attention. The student who uses this work will not look in vain for important details, or be confused by obsolete statements at variance with the descriptions of his instructor.

Handsome circular, showing descriptive pages and sample illustrations, cheerfully sent free upon request.

Our stock of Medical Books, American and English, is the largest and most complete this side of the Atlantic. Correspondence solicited. Queries promptly answered. Orders as promptly executed.

PUBLISHERS,

1102 Walnut Street. PHILADELPHIA,

ANNOUNCEMENT.

It was our intention to have gotten out the first complete edition of The American Osteopathic Directory in April, but so much of the information regarding colleges, societies, and the complete addresses of Osteopaths, was delayed that we found that impracticable, and now present you the edition in July. As you will notice, the directory is printed from a brand new face of type, and an entirely new arrangement of matter presented, which we feel adds to its mechanical appearance and usefulness as a work of reference.

While this issue is the most complete of any yet issued, there is still much to be done and much information to be added before it reaches that state of perfection we hope it to reach.

You can aid us greatly in this work by sending us corrections you know that should be made.

It is our purpose to give more information regarding the qualifications and standing of the members of the osteopathic profession and to that end have prepared a blank (which appears at the bottom of this page) which we ask you to fill out and return to us not later than September 1st.

All members of the classes that have just graduated are requested to send us their addresses not later than September 1st, to insure publication in the next issue of the directory, in October. Fraternally yours,

**THE AMERICAN OSTEOPATH CO.,
Memphis, Tenn.**

Prevention Better than cure.

The modern family of intelligence appreciates the doctor who is capable of KEEPING them out of scrapes fully as much as they do the physician who can GET them out. The up-to-date physician, therefore, is keeping a watchful eye on his clients and giving them good advice about diet, ventilation and hygiene generally.

There is always A best book.

Every physician should be thoroughly conversant with the general principles of hygiene, and should procure a copy of the best book on that subject. This must invariably mean ROHE'S TEXT-BOOK OF HYGIENE (Third Edition), a volume which is written in such a fascinating manner as to make the perusal of every chapter a pleasure. The late Dr. Rohe achieved a great reputation, not only as a teacher of hygiene, but in a practical way as health officer for the city of Baltimore. No work on hygiene has ever created so favorable an impression as Rohe's Text-Book.

Well worth the Price.

This handsome octavo volume contains over 450 pages, is well illustrated, and also contains valuable tables. Price, net, \$3.00. Delivered.

If Your Bones are Bent and Bleak—

No flesh, no blood, no vim, no hope—go first to a good **OSTEOPATH**. He'll readjust the spine, sooth the nerves, and strengthen the vital functions. Then ask a true **NATUROPATH** how to complete the healing process—by the right foods, exercises, baths, clothing, thoughts, and life-habits that mean perfect health through ideal living.

Don't be bigoted—a mere bone pathologist—at least investigate the first system of healing ever wrought out that includes every natural measure, with the purpose of perfecting **YOU**. That's **NATUROPATHY**. It's very doubtful if you can follow us—we advocate the newest of the new in the new thought and the new therapy and prudes, antiquies, fad-dists aren't far-sighted enough to see the situation without blinking.

Perhaps the simplest way to introduce yourself would be to waft us 10 cents to help pay for the paper the "Naturopath and Herald of Health" is printed on. You could not pay for the Magazine—that has cost thousands of dollars and year's of study. It's the greatest Progress Monthly in the field—80 pages fresh from the pens of the foremost therapeutists in Germany, England and America. Contributions by leading Osteopaths make it of special value to **YOU**.

We've a Hygienic Supply Company also, and specialize in health foods, exercises, clothing, appliances, books and other supplemental adjuncts to Osteopathic treatment.

Naturopathy doesn't appeal to Osteopaths satisfied to be simple "bone-setters"—it does appeal to true physicians of all schools.

Which category is yours? A stamp will tell us.
