Military Friendly

Named to the 2016 list of Military Friendly Schools®, ATSU is among the top 20 percent of colleges, universities, and trade schools in the country doing the most to embrace America's military service members, veterans, and spouses as students and ensure their success on campus.

A photograph showing a healthcare professional, a young woman with blonde hair wearing blue scrubs and floral-patterned gloves, smiling as she assists an elderly woman. The elderly woman, with short brown hair and glasses, is seated in a wheelchair and wearing a black top and a pearl necklace. They are in a kitchen-like environment with a sink, faucet, and various items on the counter in the background. The professional is holding a metal tray, and the woman is holding a wooden spoon.

HEALTH SCIENCES

ATSU offers residential and online master's and doctoral health sciences programs. Our goal is to educate caring and competent healthcare professionals who are passionate about serving their communities.

preparing the next generation of compassionate clinicians

Envision the possibilities. In our supportive, state-of-the-art learning environment, students may select from a full continuum of health sciences programs.

A.T. Still University's Arizona School of Health Sciences (ATSU-ASHS) focuses on a team approach to healthcare, with cross-discipline students working together interprofessionally in core classes and on group projects. This unique education model involves collaboration with student clinicians, student doctors, and student dentists to optimize learning and deepen understanding of the teamwork necessary to provide compassionate, superior quality healthcare.

CURRICULUM

View the complete course catalog and curriculum at: atsu.edu/at

Our unique athletic training curriculum enhances critical thinking to prepare students for advanced clinical practice, research, and leadership roles.

ADMISSIONS

The athletic training program operates on a rolling admissions cycle. Applications are accepted beginning in August, and all applications are considered until all seats are filled.

Only athletic trainers who are certified by the Board of Certification (BOC), or individuals who have met all eligibility requirements to sit for the BOC certification examination, are eligible to apply.

Download your application and review admission requirements and prerequisites at: atsu.edu/at

ATHLETIC TRAINING

Athletic trainers specialize in the prevention, assessment, treatment, and rehabilitation of athletic injuries and illnesses, particularly of an orthopedic and musculoskeletal nature.

Advance your skills in physical examination and diagnosis, orthopedic rehabilitation, sport-related concussion, and pediatric athletic training.

FAST FACTS

Degree	Master of Science (MS)
Program length	2 years
Format	Residential
Average age	23
Average GPA	3.42 cumulative

Graduate Athletic Training Assistantships

The athletic training program sponsors a variety of funded graduate assistantship opportunities for BOC-certified and Arizona Board of Athletic Training state licensed athletic trainers. Funding ranges from \$8,000-\$18,000 annually and includes high school and collegiate settings. Traditional tuition waivers are not available.

ATSU-ASHS offers the following athletic training degrees to prepare graduates to apply their passion at the forefront of a rapidly growing healthcare system:

Master of Science in Athletic Training

Doctor of Athletic Training (online)

2.50

Cumulative minimum GPA required for admission

\$395,000+

National Athletic Trainers' Association Research and Education Foundation grants received by the athletic training program

Learn more about the Athletic Training Department at:
atsu.edu/at

CURRICULUM

View the complete course catalog and curriculum at: atsu.edu/aud

Challenge yourself with didactic and laboratory course work and clinical experiences. Our audiology students are placed in clinical rotations in some of the most prestigious clinical facilities in the country.

ADMISSIONS

Applicants should apply by February 1 to be included in the initial screening and selection process. All subsequent applications will be considered on a rolling admissions basis until remaining openings are filled.

Complete your application online and review admission requirements and prerequisites at: atsu.edu/aud

AUDIOLOGY

Audiologists are trained in the development, anatomy, physiology, and pathology of the audiovestibular system, as well as the prevention, evaluation, and treatment of hearing and balance impairment.

ATSU-ASHS offers an entry-level, post-baccalaureate residential program for students aspiring to become doctors of audiology.

FAST FACTS

Degree	Doctorate (AuD)
Program length	4 years
Class size	14
Average age	23
Average GPA	3.42 cumulative 3.31 science

6:1

Student-to-faculty ratio

3,300+

Graduates hail from the
audiology program

ATSU-ASHS offers the following audiology degree programs to prepare graduates to apply their passion at the forefront of a rapidly growing healthcare system:

Entry-Level Doctor of Audiology

Post-Professional Doctor of Audiology (online)

atsu.edu/aud

CURRICULUM

View the complete course catalog and curriculum at: atsu.edu/ot

Interdisciplinary learning is stressed within the classroom. You'll gain a strong foundation of critical inquiry applied to the practice, education, and administration of healthcare. Community-based lab experiences are combined with course work prior to clinical rotations.

ADMISSIONS

Review admission requirements and prerequisites at: atsu.edu/ot

The entry-level occupational therapy residential program operates on a rolling admissions cycle. Applications are accepted beginning in July, and all applications are considered until all seats are filled. Submit applications via the Occupational Therapy Centralized Application Service at: otcas.org

OCCUPATIONAL THERAPY

Occupational therapists improve the lives of those limited by physical injury or illness, a dysfunctional condition, cognitive impairment, psychological dysfunction, mental illness, developmental or learning disability, or adverse environmental conditions by helping them restore the highest possible level of functional independence through purposeful activity and interventions.

ATSU-ASHS offers an entry-level residential program for aspiring occupational therapists.

FAST FACTS

Degree	Master of Science (MS)
Program length	28 months
Class size	34
Average age	27
Average GPA	3.45 cumulative 3.34 science

20/30

Hours of observation with an occupational therapist required for admission: 20/residential master's and 30/residential doctorate

250

Rural and urban clinical training sites available to students

ATSU-ASHS offers the following occupational therapy degrees to prepare graduates to apply their passion at the forefront of a rapidly growing healthcare system:

Residential Entry-Level Master of Science in Occupational Therapy

Residential Entry-Level Doctor of Occupational Therapy (started 2016)

Post-Professional Occupational Therapy Doctorate (online)

Advanced Master of Science in Occupational Therapy Studies (online)

Learn more about the Occupational Therapy Department at:
atsu.edu/ot

CURRICULUM

View the complete course catalog and curriculum at: atsu.edu/pt

Course work emphasizes a strong academic foundation and clinical practice. Supervised clinical internships are required.

ADMISSIONS

Application deadline: Jan. 16

Complete your application online and review admission requirements and prerequisites at: atsu.edu/pt

Submit applications via the Physical Therapist Centralized Application System at: ptcas.org

The residential physical therapy doctorate program operates on a rolling admissions cycle that opens in July and continues until the class is full.

PHYSICAL THERAPY

Physical therapists diagnose and treat dysfunction of the musculoskeletal, cardiopulmonary, neuromuscular, and integumentary systems, facilitating greater independence, health, wellness, and quality of life for those they serve.

ATSU-ASHS offers an entry-level residential program for students aspiring to become doctors of physical therapy.

FAST FACTS

Degree	Doctorate (DPT)
Program length	3 years
Class size	62
Average age	25
Average GPA	3.32 cumulative 3.25 science

30

Hours of observation with a physical therapist required for admission

500+

Rural and urban clinical training sites available to students

ATSU-ASHS offers the following physical therapy programs to prepare graduates to apply their passion at the forefront of a rapidly growing healthcare system:

Residential Doctor of Physical Therapy

Post-Professional Doctor of Physical Therapy (online)

Physical Therapy Orthopedic Residency (non-degree)

Physical Therapy Neurologic Residency (non-degree)

Learn more about the Physical Therapy Department at:
atsu.edu/pt

CURRICULUM

View the complete course catalog and curriculum at: atsu.edu/pa

Didactic and laboratory work comprise the first 14 months, and the following 12 months consist of clinical rotations and a capstone project.

ADMISSIONS

Application deadline: Sept. 1

Download your application and review admission requirements and prerequisites at: atsu.edu/pa

Submit applications via the Central Application Service for Physician Assistants at: caspaonline.org

The residential physician assistant studies program operates on a rolling admissions cycle.

PHYSICIAN ASSISTANT

Physician assistants are licensed to practice medicine with physician supervision. They take medical histories, perform physical exams, order and interpret lab tests, and assist in surgery and patient counseling.

ATSU-ASHS offers an entry-level residential program for students aspiring to become physician assistants who live the dream of selfless service.

FAST FACTS

Average GPA	3.57 cumulative 3.52 science

12

Months of clinical rotations and a capstone project

ATSU-ASHS offers the following physician assistant degrees to prepare graduates to apply their passion at the forefront of a rapidly growing healthcare system:

Residential Master of Science in Physician Assistant Studies

Post-Professional Advanced Physician Assistant Studies (online)

Learn more about the Physician Assistant Department at:
atsu.edu/pa

interprofessional education

Working together is important, especially when it comes to patient care. Interprofessional education (IPE) at ATSU brings together students across disciplines and schools and provides opportunities to communicate and work collaboratively in teams. Programs including case competitions and research symposiums complement ATSU's current and ongoing efforts to implement IPE into curriculums around the University.

Take advantage of the opportunities and build relationships across healthcare professions. By gaining practical experience, you'll help advance quality, consistent care for your future patients.

still-well

It is impossible to give what you don't have. For this reason, the Still-Well Program at ATSU encourages students, faculty, and staff to value their own health and wellness through a series of structured activities focused on these areas: emotional, environmental, intellectual, physical, social, spiritual, and professional.

Begin your journey through health professions school the healthy way—and reap the benefits of joining the Still-Well team.

diversity means more than hue at ATSU

A.T. Still University is deeply committed to an educational and collaborative environment embracing cultural proficiency. ATSU believes excellence requires understanding, affirming, and valuing human difference. ATSU supports students who learn and serve in diverse, underserved, urban, and rural communities across America. ATSU's alumni also practice, work, and volunteer across the world.

National Center for American Indian Health Professions

The American Indian and Alaska Native communities are among the most underserved in terms of healthcare. To help address this great need and build on its long tradition of working closely with these communities, ATSU created the National Center for American Indian Health Professions as a way to develop outreach to American Indian and Alaska Native high school and college students, with the goal of sparking interest in healthcare careers. For more information, visit: atsu.edu/american-indian

preparing for health professions school application

Preparing an application for health professions school may be one of the most important processes a prospective student will ever encounter. The key differences between successful and unsuccessful applications often lie in the manner cumulative experiences are portrayed in the application. Applicants with the appropriate preparation need to be effective in completing each component of the application to be selected from among thousands of other applicants. Pre-health professions students who have developed their academic backgrounds and out-of-class experiences need to set themselves apart so their application leads to an interview, and ultimately an acceptance.

With extensive experience in graduate health professions admissions, ATSU's Admissions staff offers important tips and guidelines for prospective students to consider when preparing successful applications.
