

TEACHERS and AREA SCHOOL SYSTEMS

Teacher placement in Missouri is usually best accomplished by contacting the schools directly. Most schools have web sites, which are collectively listed on the Department of Elementary and Secondary Education's web site at www.dese.state.mo.us.

This central site has links to individual school web sites. Each school then lists contact information, job vacancies, and even downloadable applications! If you have questions about credentials, contact the individual schools in addition to the Missouri State Credentials Office in Jefferson City at (573) 751-3486.

Missouri does not have a formal "lateral entry" program (teaching without a certificate). We suggest you contact the individual school system to learn of their specific certification process as they are very willing to assist you.

The Department of Elementary and Secondary Education web site (above) provides an overview of the Missouri schools and enables you to choose schools based on grade level. You can then compare them to the list below of "commutable" schools.

The Truman State University Career Center offers a teacher placement service on their campus. For a fee, they will mail you their compiled placement information. Keep in mind that there may be a delay of a couple of weeks from posting to printing. They can be reached at (660) 785-4353.
