# OPTIK Member Benefits...

## Library Resources

OPTIK members can access most of our resources on-line, roughly 5,000 medical journals (both clinical and basic science). Accessing our library through the "portal" is easy and convenient.

Here are some of the most popular items:

- On-line journals
- Electronic Textbooks
- PubMed
- MDConsult → These allow
- STAT Ref → searching of clinical books across libraries!!!

Point-of-care clinical tools that can be accessed electronically include:

- Essentials Evidence Plus
- First Consult
- ACP PIER

## Faculty Development Workshops

OPTIK will coordinate faculty development seminars. We bring the latest information and training on topics that impact our members.

Some of those topics include:

- OMM
- Graduate Medical Education and Funding
- Professionalism
- Evidence Based Medicine

## Core Competency Curriculum

OPTIK provides Core Competency materials to assist with integration into daily operations and training of their own faculty. Members receive taped lectures semi-annually and will soon be able to access this information through the portal.

## Inspections

An important function of OPTIK is helping our members prepare for internship/residency inspections. Through on-going dialogue with key faculty and review of inspection workbooks, we can identify potential concerns prior to the inspection date. If possible, a member from OPTIK will be on-site during the inspection. With all inspections, OPTIK will assist on follow-up with the AOA and/or specialty college.

## Evaluation Tools

OPTIK can help you access the tools you will need to evaluate your trainees and other aspects of your program. We can also connect you with other members for input on software selection/utilization and help you determine what options are best suited to meet your needs.

*Let OPTIK help you advertise your program!*

residency. OPTIK will update the information annually. Member information is also distributed to KCOM student's during their first two years.

## Marketing

Each member will have a section on OPTIK's web pages that students can review when choosing a location for internship and/or

Additional ways we help you advertise:

- ⇒ National Conferences
- ⇒ Hospital Day Activities
- ⇒ On-line Catalog
- ⇒ OPTIK Promotional items include member information
- ⇒ Individual consultation with students
- ⇒ Classroom presentations showcasing OPTIK members
