ANDREW TAYLOR STILL PAPERS

Copyright and Permission to Publish: Requests for permission to publish material from the collection should be directed to the Curator. The Museum does not claim to hold the copyright for all material in the collection; it is the responsibility of the researcher to identify and satisfy the holders of other copyrights.

Suggested Citation: Andrew Taylor Still Papers, Museum of Osteopathic Medicine, (SM), Kirksville, Missouri

Series 2: Laughlin Box

Essays, letters, book drafts, and other papers; these constitute the bulk of the 1990 Elizabeth Laughlin donation and are assumed to represent the state of the papers when they were in family hands.

¹ Lecture sections are organized by body region (e.g., thorax) and include discussion of both structures and diseases. Many include a chapter or section outline. Still’s authorship of much of this material is in question because of frequent reference to “the latest Medical writers” and prescription of emetics, cocaine, and various other pharmaceutical remedies; see for example, the section of EL-13.12 describing asthma treatments.
