800 WEST JEFFERSON, KIRKSVILLE, MO 63501 (660) 626-2359

WILLIAM L. JOHNSTON COLLECTION

Series 3: Michigan State University Faculty and Teaching Materials

- Accession No.: 2006.27.42-3
- Volume: ca. 5.5 linear feet (5 record storage cartons, 1 document box)
- Contents: Material documenting WLJ's activities as a faculty member at the Michigan State University College of Osteopathic Medicine (1973–1989; emeritus 1990–2003). Included are quarterly activity reports; notes on department committees and activities; syllabi and teaching materials for the “Comprehensive Patient Evaluation” and “Osteopathic Examination” sequences, * various functional methods classes, and lectures on specific subjects; materials relating to MSUCOM's Primary Medical Initiative (PMI); and reference materials gathered by WLJ in relation to courses he taught.
- Some activities conducted while at MSUCOM are documented in other series; see Related Material, below.
- Dates: 1973–2003 (some reference material dated earlier)
- Access: Unrestricted
- Handling: **CAUTION!** All the Johnston papers contain numerous small slips of paper that will fall out if folders are not kept flat on the table. Researchers must also be careful not to disturb the arrangement of groups and subgroups of material, indicated by folded acid-free paper enclosing each batch (see finding aid introduction).
- Copyright and Permission to Publish: Requests for permission to publish material from the collection should be directed to the Curator. The Museum does not claim to hold the copyright for all material in the collection; it is the responsibility of the researcher to identify and satisfy the appropriate copyright holders.
- Suggested Citation: William L. Johnston Collection, Museum of Osteopathic Medicine, (SM), Kirksville, Missouri [Box #:Folder #]
- Related Material: Research Activities series (4)
Artifacts series (8): MSUCOM physician jacket, academic robes, office name plate
Publications and Presentations series (5): Courses (especially functional methods) given in non-MSU settings
Collected Research series (6) : small number of committee reports, proposals, etc., authored by others (WLJ received copy)
Audiovisual Materials series (9): MSUCOM's “Osteopathic Examination and Manipulation” videotape series, featuring WLJ and his colleague Myron Beal
Tinning Curriculum And Planning Materials (Museum collection)

* Some curriculum materials may have been gathered by WLJ as part of a curriculum review process and may not indicate classes that he himself taught (see, for example, MSU4:14–18).

<p>Primary Medical Initiative PMI was a new medical education model launched at Michigan in about 1995 with the goal of attracting more students to primary care. Key components included “an educational continuum, innovative teaching methods, an active learning environment, and new educational technologies.” See Wood, D.L., The Primary Medicine Initiative—Continuity in medical education, <i>JAOA</i> 94:1 (1994 Jan):67-73.</p>
