**Series 9: Audiovisual Materials**

Accession No.: 2006.27.104-114

Volume: 8 DVDs and 3 CDs (originally 22 ¾-inch videotapes, 5 VHS tapes, 2 reel-to-reel audiotapes)

Contents: Primarily videotapes from two MSUCOM “Osteopathic Examination and Manipulation” series; also includes other demonstrations and talks by WLJ; a videotaped lecture by I.M Korr; audiotaped presentations by Bernard St. John and Anne Wales (NEAAO, 1967); and miscellaneous other material.

Dates: 1967–1998

Processing Notes: Videotapes were copied to DVDs and audiotapes to CD; the originals were scheduled to be discarded in July 2008. Duplicates and defective tapes were discarded without copying and are not included in this finding aid.

Access: Unrestricted.

Copyright and Permission to Publish: The Museum does not own the copyright for the audiovisual materials in the collection; requests for permission to reproduce audiovisual materials should be directed to the originating body (e.g., MSUCOM). It is the responsibility of the researcher to identify and satisfy the appropriate copyright holders.

Suggested Citation: William L. Johnston Collection, Audiovisual Materials Series, Museum of Osteopathic Medicine, (SM), Kirksville, Missouri [Accession #]

Related Material: Working papers for the production of the videotapes are found in the Videos subseries of the Publications and Presentations series.
