The Assessment portion of Foliotek is where you will work on adding and removing elements and files to various sections of your portfolio. You can begin working by clicking on a section beneath "Edit this portfolio" and adding/removing elements or adding files to those various elements. You can also preview any upcoming evaluations, view defined resources for your portfolio or share your portfolio with peers. If you get stuck, use the help menu (the link is located in the upper right of your screen).

Osteopathic Medicine >

Service

Students will be able to document their service activities. For most students this information will be the same that they compile for the LeaderScript. However some students engage in service work that doesn't fit the LeaderScript criteria therefore having this section as part of the portfolio will allow them to still document their activity.

Managed by **foliotek**

further subscribes to a wellness philosophy that encourages students to acquire leadership/fellowship opportunities, to develop personally and professionally and to be of service to others while a student. ATSU believes that the co-curricular experiences students gain make them uniquely qualified as talented, caring, and compassionate professionals. Students may include on their LeaderScript only experiences that are strictly volunteer and not done for academic credit, pay, or for other personal gain.

LEADERSHIP:
Describes a student's involvement in social, academic, and professional clubs and organizations.

DEVELOPMENT:
Describes experiences, seminars, conferences, wellness participation, etc., that may impact the personal or professional growth of the student.

SERVICE:
Describes any volunteer service that was performed at school, in the community, or while on rotations.
