C.E. Credit……….3 hours
Classroom………..Saguaro A, 5850 Bldg.

Format…………..Lecture
Tuition………….$200
Audience………..Dentists

Course Description

This course is designed to provide the dental clinician with clinical endodontic techniques, tips, and tricks to increase endodontic confidence and mastery. Dr. Pullen will discuss endodontic diagnosis and pulpal testing, case selection, anesthetic selection associated with a “hot” tooth, irrigation protocols during negotiation, instrumentation, and prior to obturation, endodontic treatment from access to coronal negotiation, coronal flare, negotiation to working length, obtaining an accurate working length and an open glide path, Nickel-Titanium rotary and reciprocation files, sealer and obturation of the root canal system, and post-operative instructions and pain management with various analgesics.

At the conclusion of the course the clinician will know how to:
• Perform pulp testing correctly
• Diagnose endodontic problems with greater accuracy
• Approach root canal treatment with confidence and expertise

About the Presenter

Reid V. Pullen earned his DDS degree from the University of Southern California in 1999. After completion of an Advanced Education in General Dentistry residency in the U.S. Army, he served in the Army dental corps. Dr. Pullen worked as a general dentist in private practice from 2002-2004 and then attended the Long Beach VA Endodontic Residency earning a certificate in Endodontics. Dr. Pullen became a Diplomate of the American Board of Endodontics in 2013 and owns a private endodontics practice in Brea, CA.
