Integration of Pain Control During Nonsurgical Periodontal Therapy
Using the ‘Velvet Touch’
with
Margaret J. Fehrenbach, RDH, MS

Date…………November 2, 2013
Time………….9:00 a.m. – 12:00 p.m.
CE Credit……..3 credit hours

Format……..Lecture
Tuition……..$65
Audience……..Dental Hygienists, Dentists

About the Presenter
Margaret Fehrenbach is an oral biologist and dental hygiene educational consultant. She recently received the AC Fones Award from the ADHA for her work in promoting local anesthesia for dental hygienists. Margaret has presented at ADEA, ADHA, and ADA Annual Sessions as well as Under One Roof for RDH Magazine. She is involved in webinars and radio broadcasts as well as social media outlets.

Course Description
Definitive pain control should be an integral part of nonsurgical periodontal therapy. This course will explore options of pain control such as nitrous oxide analgesia, topical and local anesthesia. The use of the ‘Velvet Touch’ for local anesthesia will be included, as well as its use with ultrasonics and the new administration devices. Internet resources will be noted on handout along with useful illustrations.

Learning Objectives
At the conclusion of the course, participants will be able to:

▪ Discuss pain control and options for use during nonsurgical periodontal therapy.
▪ Discuss use of the ‘Velvet Touch’ injection techniques for local anesthesia.
▪ Discuss the use of local anesthesia with ultrasonics, as well as the new devices for administration available.
▪ Integrate the knowledge of definitive pain control into nonsurgical periodontal therapy.

Arizona School of Dentistry & Oral Health is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

This course is sponsored in part by an unrestricted educational grant from Dentsply Pharmaceutical.
