

Student DO/DMD Day at ATSU

Join us for a typical day in the life of an ATSU student with academic activities, lunch, and a campus tour with current student ambassadors.

Dates: Feb. 19, 2019 and April 2, 2019

DO & DMD dates include:

- Lectures and labs with student host
- Information session with Admissions
- Lunch and tour with student ambassador
- Museum of Osteopathic Medicine

Highlights of the programs

- ATSU-KCOM is the founding school of osteopathic medicine. Students can learn about its rich history by visiting the Museum of Osteopathic Medicine, located on campus.
- ATSU-KCOM uses the aligned-discipline curriculum model, which focuses on aligning subject matter among the basic sciences and clinical sciences, with a focus on Osteopathic Manipulative Theory, full cadaver dissection, and human patient simulation.
- ATSU-MOSDOH aims to increase access to oral healthcare for Missouri's most vulnerable populations by addressing the state's critical shortage of dentists.
- Only the second dental school in the state, ATSU-MOSDOH's goal is to graduate dentists who have an in-depth understanding of and a desire to serve populations in need by focusing on clinical simulation in the classroom and exposure to public health.

ATSU's Student Osteopathic Medical Association and American Student Dental Association encourages pre-med and pre-dental students to attend ATSU's DO/DMD for a Day. Undergraduate students who are interested in learning about our university are encouraged to attend.
