In appreciation for the tireless work of our community preceptors we have subscribed to a web resource, TeachingPhysician.org. The site offers videos, tips, answers to frequently asked questions, and links to in-depth information on topics such as:

- Preparing a practice for a student or resident
- Integrating a learner into office routines
- Setting expectations
- Teaching strategies
- Giving feedback
- Evaluating learners
- Billing

The site provides quick answers to questions that arise during daily interactions with learners. Preceptors can earn up to 17.5 CME credits by reviewing the information on the site. New content is added on a regular basis. An email is sent from the site administrator each month, directing preceptors to that month’s key topic areas.
