Story of Quake and Fire

Told by a Frisco Osteopath

The quake and fire took place in San Francisco on the evening of April 18, 1906, the latter being the beginning of the week. The earthquake struck the city at 5:14 p.m. and then the fire broke out, adding to the destruction. The city was in chaos, with the earthquake causing panic and the fire further exacerbating the situation.

The city was divided into districts, with the northern part of the city being the first to experience the earthquake. The shock was so strong that it caused buildings to collapse and many people to flee for their lives. The fire started in the southern part of the city, spreading quickly due to the lack of water and the destruction caused by the earthquake.

For a while, the city was in a state of shock, with people struggling to find shelter and food. The government took control, establishing relief stations and providing food and water to those in need. The people of San Francisco, rich and poor, came together to help each other, with the city's famous huddle of tents and barracks being set up to provide temporary shelter.

The city was in a state of mourning, with many people accepting the inevitable with great courage. The death toll was high, with over 3,000 people losing their lives in the quake and fire. The city was left in ruins, with many buildings destroyed and the streets covered in debris.

The city slowly began to recover, with efforts being made to consolidate the camps and provide temporary shelters for the homeless. The city's spirit was strong, with people working together to rebuild and recover. The city was a testament to the human spirit and its ability to withstand even the worst of disasters.
Come and bring your family! Reserve your room now. For maps, folders and information address, T. W. McCreary, Gen. Mgr., 724 Monroe St., Toledo, Ohio. (After June 1st, at Put-in-Bay, Ohio.)

nature through it all. It is quite remarkable to see the number of men who now preside over the street kitchens. Many of the chimneys have already been rebuilt, and only await the official permit to return to every day life, but while the water supply has been so low it has not been forthcoming. A day or two after the earthquake one woman is reported to have built a fire in her stove. A defective flue caused a conflagration which wiped out many choice blocks, so no one complains about outdoor cooking.

Now a word concerning Osteopathy in San Francisco. Nearly every practitioner lost his office, books and some homes, too, but not a word of repining or downheartedness is heard. Courage, patience and determination to do better than before is the keynote among all. They are members of the State Association which you mentioned in a recent number of The Osteopathic Physician. As far as we have been able to learn no practitioner suffered any physical injuries, and all are hopeful of having a larger and better practice than before.

The California College of Osteopathy was not in the burned district, and invited all who lost their offices to make it their headquarters. The books and property belonging to the California Osteopathic Association are safe and to address all communications to the secretary at 300 Baker street, San Francisco.—Yours fraternally, Ernest Sisson, President, Delger Bldg., Oakland, California, April 27th.

From Dr. Wm. Horace Ives:
There are only six Osteopaths in San Francisco to-day whose offices have not been burned and the offices of two of those were seriously damaged by the earthquake. So far as I have been able to ascertain none of our practitioners were killed or wounded. Most of them I have seen were uncertain as to their future plans. Personally, a change of location seems desirable. The wreck here is almost complete. I cannot describe it. Have been doing police duty at night, sanitary inspection and Red Cross duty in the mornings and am on a food relief station in the afternoons. We all can keep busy. Do not know what was printed in eastern papers, but cannot see reports covering our condition. The retail, wholesale, office, factory, fashionable hotel and the poor, south of Market street districts, have been swept clean. San Francisco as if the edge of more or less broken houses. My hour of duty has arrived so must close. Please send O. P. to me at 36th Sacramento street.

From Dr. S. D. Cooper:
Of course you have heard of the terrible experience that we have just gone through here in San Francisco. At present I am commissioned to do sanitary work by the San Francisco Board of Health and am proud to be able to render some assistance in such a great work, for the thing to be most dreaded now is an epidemic. Other D. O.'s are also in the public health service.

We lost everything in the fire, but a dear friend who moved his family to the country has opened his house to us, so we are well cared for in the way of a home. I would like for you to mention in "The O. P." that we Osteopaths are doing sanitary work for the Board of Health and in any way that you can help us get together our once fine practice, and send us ten copies of the June number of Osteopathic Health. Let the business address stand as it was but change the residence address to 2400 Buchanan, near Jackson. Phone West 252.

From Dr. C. L. Thompson:
Many of us loose everything but our profession—which is the best one on earth. I got over the bay to Alameda yesterday and gave
THE OSTEOPATHIC PHYSICIAN

From Dr. Chas. K. Hale:
The supply of "Osteopathic Health" recently got of you was consumed in the fire here. Please send the same order over and wait until the return of general prosperity for your money. Make my new address 877 Schroeder street.—Yours truly, Chas. K. Hale.

From Dr. Daln L. Tasker. Los Angeles:
I received a letter from Dr. Burke of the California College May 1st saying "At present we have decided to discontinue our college until the fall term and then possibly commence a month earlier, as we are practically closing a month earlier." Have heard from Drs. Ford, Madden, York and Burke. All report property loss. Dr. Andrey C. Moore of San Francisco is in town and called here but I was out. He probably suffered like the rest.

The reports in the Hearst newspapers were calculated to strike terror to the hearts of all readers. The truth was bad but the customary Hearst methods of telling it were fierce. We had a slight tremor here on Thursday, following the series of shakes in S. F. I did not feel the shake here but those who were in the high buildings felt it. I have seen a copy of the N. Y. Journal saying 5,000 were killed in Los Angeles! We were about as much affected by the shake as you were in Chicago. We are 500 miles away from the scene of this terrible catastrophe but people who know California by hearsay think we are in the great calamity. Some of the letters I have received were a great surprise to me until I learned of the reports sent out by the Hearst people.

California College Adjourns:
Kindly change the date of opening of the California College term to Sept. 12, 1906. We found it necessary to close the session. Transportation facilities were such that it was im-

"CIRCULAR OF INFORMATION" FREE

The editor advised all such inquirers that as it would be a month before another edition of The O. P. went out and as contributions of all sorts should be made immediately, the editor did not feel it wise for him to receive subscriptions. It will save all the trouble of canvassing and many people are looking for an opportunity to give aid and would become more quickly available for the sufferers if sent direct through the channels already in force in every state of the Union, while such aid as the profession as a whole might want to extend a little later ought to be received and disbursed through official channels. We as a profession ought to give these poor comrades a "shower," and rain down upon them, with as much promptness as possible, the money for clothes, temporary board, treatment tables, swings, etc., etc., whatever they need to help them begin to rehabilitate their ruined practices.

This publishing company has written to its patrons in Frisco offering what help we can contribute in our line. Some have already done their share, and others have had no idea of the opportunity. Doubtless individual Osteopaths are writing to individual friends, old classmates and neighbors and offering aid direct, but all should have a chance to help who desire and feel able to—each according to his or her means and blessings in practice—with the assurance that such contributions will find their way to the right spot and do the most good.

Such an opportunity is now afforded. The channel for collection and distribution has been provided. Send your money to Dr. M. F. Hulet, Treasurer, Wheeler building, Columbus, Ohio, and the A. O. A., in conjunction with officials of the California Osteopathic Society, will do the rest. Let us raise enough to do the good work in hand and enough to reflect credit upon our profession.

The Breakfast Food Family.

BERT LESTON TAYLOR.

John Spratt will eat no fat,
Nor will he touch the lean;
He eats of all meat;
His food is flat.

But Mrs. Spratt will none of that;
Foodine she cannot eat.
Her special wish is for a dish
Of Expurgated Wheat.

To William Spratt that food is flat
On which his mather dotes.
His favorite food—his special need—is Eata Heopa Oats.

But sister Lil can't see how Will
Can touch such tasteless food.
As breakfast fare it can't compare,
She says, with Shredded Wood.

Corrected Wheat for little Pete;
Flaked Pine for Dot; while "Bub,"
The infant Spratt, is waxing fat
On Battle Creek Near-Grub.

Mrs. Spatt will none of that; Foodine she cannot eat.
Her special wish is for a dish
Of Expurgated Wheat.

But Mrs. Spratt will none of that;
Foodine she cannot eat.
Her special wish is for a dish
Of Expurgated Wheat.

To William Spratt that food is flat
On which his mather dotes.
His favorite food—his special need—is Eata Heopa Oats.

Mrs. Newblood-No, but our boy is a quarterback. — N. Y. Sun.

Joseph Spratt that food is flat
On which his mather dotes.
His favorite food—his special need—is Eata Heopa Oats.

Mrs. Oldblood—Do you go back to William the Conqueror?

Mrs. Newblood—No, but our boy is a quarterback. — N. Y. Sun.
No Law For N. Y. This Year
Still We Made a Great Fight

By Dr. Charles Hazzard, New York City

T HE campaign in New York State for legislative recognition has again closed with our hopes being realized, but, though defeated again temporarily, we stand to-day nearer to the goal we seek than ever before. To the neglect of having passed our bill through the Senate, the publicity given to Osteopathy by the public press, has put us into a position with the public far in advance of our position. Significant every newspaper in the state, about one hundred and fifteen in all, gave our bill favorable mention. The New York Times is the only paper in the state that did not give us decent treatment. Yet we hardly expected so much of the Times, whose well-known hostile attitude toward Osteopathy is well understood to be the result of the bitter feelings of the medical member of its editorial staff.

After its passage of the Senate by a vote of 31 to 13, our bill would most certainly have passed the Assembly by a good majority, as we were sure of enough votes to do this, had it not been for one long, stubborn, and personal request of the treachery of one man. Had the bill passed we are assured the Governor would have signed it.

The campaign carried through was one of the most remarkable in osteopathic annals, for strenuousness, coherence and unanimity. The osteopaths of the State labored as one man, their loyalty to the cause and of the Board of Directors was unswerving, and all directions given were followed out fully and with promptness and vigor. Too much praise cannot be given to the osteopaths of the State for the way they hung together and worked together throughout a long and very trying campaign.

The work of this campaign was carried through with scientific precision. Every detail was planned and pushed with the utmost care. Nothing was left undone, no stone was left unturned, to secure the desired result. Nothing was left undone, no stone was left unturned, to secure the desired result. There are no regrets to express in this matter, for the defeat was an honorable one, and came to us after a remarkable fight.

Of this we are sure, the public of the State demands legislative recognition and regulation of our practice. This was made clearly evident. It was shown by the unanimity of the press in favoring our cause; it was shown by the thousands upon thousands of letters and telegrams that poured in upon Albany, day after day, and week after week, until legislators began to cry for mercy. In all some 1,500 petitions were circulated and sent in to the legislature, each one containing from 40 to 4,000 names of citizens favoring our bill. In addition to this fully 300,000 letters, telegrams and personal requests were poured in. The members say that no bill in 25 years has called out such an avalanche of demands for its passage as did the Himnan Osteopathy Bill. In addition to all this each member of the Senate and of the Assembly was seen personally and repeatedly, by the representatives and at his home by his constituents and by the local Osteopaths. This work was kept up and repeated, time after time, throughout the session.

Further, the committees which at various times had charge of our bill were labored with night and day; every sort of pressure was brought to bear on these men. Our friends in the Assembly and in the Senate labored strenuously and continuously for us.

In this connection we want to say that the greatest praise and credit are due to our valiant knight and strenuous friend, Senator Harvey Himnan of Binghamton. He fought like a bull dog for us. All New York Osteopaths love Senator Harvey Himnan now. They will never forget him. Altogether I doubt whether a more remarkable, scientific, precise and determined campaign has ever been fought through in osteopathic annals. From the time our battle-flag was first unfurled to the breeze, from the hearing at Albany to the final stab, the medical contingent certainly got a "run for their money" with a vengeance.

As every one knows, our representatives on the firing line were President Sylvester W. Hart and his wise, fogy, bald-headed lieutenant, Teall. These are the fellows that stayed up nights; who endured all the horrible, slow, patience-murdering grind; who sweat blood, but who saw the thing through. No one will begrudge a full medal of praise to these men, nor will anyone begrudge the highest praise to the brilliant work of Dr. Hart throughout the campaign. He was the brains of the battle, and his was the tremendous force and personality which dominated the situation, keeping all our forces in line, traveling here and there about the state, and giving every detail attention. He lost sleep, practice and money, and it is but fair to say that the osteopaths of the State greatly appreciate his generous labors in their behalf.

But, after all, the credit for what was done belongs to no one man, but to all who labored for the cause. The whole Osteopathic body got busy and hustled. They did splendid work, one and all. Without that there would have been no remotest chance of success. This fight has certainly welded us strongly together, and we are more strongly determined to-day than ever to wrest victory from defeat. Our next campaign has already begun, and we will never stop until victory perches upon our banner.

New York, May 9th.

Afterword from President Hart.

This battle was fought by my companions in the State, and they deserve the praise more than I. A more loyal lot of Osteopaths never will be found. God bless them. Give them the praise, not me. We are preparing for another battle next year, and shall never stop now until we win. We will win next year—

Fraternally,
Sylvester W. Hart.
Albany, N. Y., May 12th.

Gotham M. D. Objects to D. O.'s Sign.

Osteopathy got the favor of the Senate at Albany this year as never before, but to doctors of medicine "osteopathy" is still heretical. Dr. C. C. Sichel recently, at the Manhattan Square Hotel, administered an individual setback to any idea that progress has been made toward professional fraternity and equality, says The New York Herald.

He prevented a woman osteopath from hanging out a sign which read: "Dr. Isabella Whitney, Osteopathist." She holds a degree of "D. O." (doctor of osteopathy) from the American School of Osteopathy, at Kirkville, Mo.

She and Dr. Sichel occupy adjacent suites in the house. Dr. Sichel's sign has a hand pointing toward his office entrance. It also, necessarily, points to the osteopath's door. Dr. Sichel's formal ground of objection was that he had an agreement with the hotel that he was to be the only resident medical prac­titioner.

That is the fact, it was learned. But it means another dilemma. If he objects to Miss Whitney's sign as a violation of the hotel's agreement he thereby recognizes her, it was pointed out, as another physician. If his objection is based on the "D." to her sign he is objecting to what is legal in the state where it was gained.

This usage has no assured permanency. According to the County Medical Society's law department, it is permitted to continue in New York City and state because the Appellate Division is presently to give a decision which will precisely interpret the law regarding the right to prefix one's name with "D."

As Dr. Sichel has not anticipated the court decision, but has based his obstruction upon his agreement with the hotel, Miss Whitney expects that she will have to change her office.

Firm but Flexible

Every Osteopath knows how important it is to keep the spinal column in perfect adjustment after each treatment.

The SHELDON APPLIANCE
Does This Perfectly

Its use will add 50 per cent to your success with not only women and children, but with men.

The Sheldon Appliance is made to order only and after the most careful measurements made by the physician. Is absolutely firm and offers a perfect support while, at the same time, it is flexible and gives perfectly to every normal movement of the body. Easy and pleasant to wear, causes no chilling or sweating, is 100 years in advance of the usual plaster, leather, and other jackets.

We will be very happy to send to you our full literature, knowing that it will prove of unusual interest to you, also our Measurement Blank. Write for these and for Special Terms to Osteopaths.

KIRKSVILLE - MISSOURI

THE OSTEOPATHIC PHYSICIAN

Big Tri-State Rally.

You are cordially invited to be present at our Missouri Osteopathic State Association meeting, to be held in Kirksville, Mo., May 25 and 26. This will really be a Tri-State meeting of the Missouri, Iowa and Illinois Osteopaths, as the president of your state association has perhaps notified you before now.

We are earnestly striving to make this a valuable as well as representative gathering of the Osteopaths of these three great states, and, Doctor, I hope you will make every effort to be there. I feel sure you will be well repaid for your time and expense.

We have secured one and one-third railway rates but to secure this reduction we must have one hundred in attendance, and we will probably have double that number; but to get the benefit of the reduction, when you buy your ticket to Kirksville you must have your agent give you a certificate stating that you bought the ticket for this occasion. You will pay one full fare going and get your return ticket for one-third fare provided you bring this certificate. These tickets are good for three days before and three days after our convention.

Meet with us in Kirksville, Friday and Saturday, May 25 and 26, and we will have the time of our lives. Very sincerely yours, Arthur G. Hildreth, President, M. O. A.

St. Louis, April 30th.

Program of M. O. A., May 25-26, 1906, Kirksville, Mo.

Friday Morning.

9:00 Address of Welcome, by Dr. W. D. Dobson. Response, Dr. A. G. Hildreth, St. Louis.

9:30 Paper by Dr. Miller, president Iowa O. A.: Local Organizations.

10:00 Paper, Dr. Fryzfe, president Illinois O. A.: The Circulatory Apparatus.

10:30 Paper, Dr. R. T. Loye, Kansas City: ProfessionalCourtesy.

11:00 Paper, A. Still Craig, Maryville: Anatomy Applied.

Afternoon Session.

1:30 Paper, Dr. E. D. Holbert: Subject: Discussion led by Dr. Jesse E. Hyatt, Marion.

2:15 Paper, Dr. W. W. Longan: Subject: Discussion led by Dr. A. B. King, St. Louis.

3:00 Paper, Dr. H. F. Goetz: Subject: The Graphical Representation of Spinal Curvatures. (A new pamphlet.) Discussion led by Dr. L. H. Gerline, Kirksville.

3:45 Gynecology Clinics, Dr. M. E. Clark, Kirksville.

Night Session.

Dedication of new A. S. O. Hospital. Reception, etc., etc.

Saturday Morning.

8:30 to 12:00 Surgical clinics by Dr. F. P. Young, Kirksville.

Operations will be performed in Surgical Clinical Amphitheater of new hospital.

Saturday Afternoon.

1:30 State Editor's Report: Dr. Minnie Potter. From 2:00 to 4:30 Osteopathic Clinics in charge of Dr. Geo. M. Laughlin.

Clinics will be given by Drs. W. A. Traughber, Mexico; A. G. Hildreth, St. Louis; E. C. Link, Kirksville; C. E. Still, Kirksville; Minnie Schreiber, St. Louis; W. J. Conner and A. L. McKenzie, Kansas City. All clinics will be open for discussion.

Evening Session.

7:30 Business Meeting: Election of officers, selection of next place of meeting and other business matters.

8:30 Dr. C. P. McConnell, Chicago: Lecture: Research Work.

MURDER WILL OUT!

Discovery in a frankfurter of a license tag bearing the inscription "Schenectady dog tax, 2.499," shows the truth still comes out, sometimes.—Evening Telegram.

The Philadelphia College and Infirmary of Osteopathy

INCORPORATED 1899

MEMBER OF ASSOCIATED COLLEGES

The foremost Osteopathic College in the east.

Fine Buildings and Lecture Rooms and well equipped Laboratories in the various departments.

Situated in the world-acknowledged center of medical training, with Hospitals, Anatomical Museums, Free Public Lectures and Clinics open to Osteopathic Students.

Faculty selected for their high qualifications and fitness in teaching, representing Four Osteopathic Colleges.

Admission and curriculum conform to the highest standard of Osteopathic Education.

Dissection and Clinical advantages unequaled by any other school.

Students are admitted only by vote of the Faculty.

The next and probably last mid-year class matriculates January 29, 1906.

For full particulars, send to the Dean for catalogue, application blank and Journal.

33rd and Arch Streets

PHILADELPHIA, PA.

"Cannot Be Done By Any Other Agency," says Dr. Ernest C. White

Watertown, N.Y., Nov. 25, 1905.

P LASE change my contract from 200 per month to 500. The work accomplished by OSTEOPATHIC HEALTH cannot be duplicated by any other means or agency. It is not only a "patient-getter," but a "patient-educator," a "patient-holder." It keeps patients from getting discouraged when results are long delayed, as results must be in many cases. I am thinking strongly of using 1,000 per month instead of the 500. Be sure and send my 500 for the current month.

Yours in haste,

ERNEST C. WHITE, M.D., D.O.
SPINAL EXTENSION

The Tractor Couch will extend your spine, your practice, and your effectiveness. Spinal extension and muscular relaxation are paramount steps in the effective treatment of a majority of your cases—especially rheumatism, lumbago, spinal and nervous diseases, paralysis in all forms, dislocations, subluxations, slippages, deformities, and the army of diseases respondent to osteopathic treatment.

Endorsed by leaders in your profession everywhere.
Price incredibly low. Will pay for itself in new practice the first month.
A scientific mechanical device, possessing therapeutic value, based on osteopathic principles.
The only office in the world.
Physicians’ machine, 28 inches high, engages body at head, feet, shoulders and hips.

Removes pressure while you make hand adjustment. Re- stores cartilage.
Your Armamentarium is incomplete without it.

THE TRACTION COUCH COMPANY
CEDAR RAPIDS, IOWA, U. S. A.

Systems for the D. O.

Do you know that system in a physician’s office is as vital—as beneficial—as profitable as in a business or commercial house? You have your records, your correspondence, your accounts. Learn to keep them in shape so that you can lay your hands on them at any minute—so you can refer to them to-morrow or a year from to-morrow, just as easily as you can to-day. For good system pays.

THERE IS A SHAW-WALKER WAY TO DO IT

Ask about it. Learn to-day. Don’t go on in the same old loose time-worn way. If a business house can be systematic, so can you. Send to-day and find out how. Just sign your name and tell us what you want to know about.

Write your name and address here.

THE SHAW-WALKER COMPANY, Muskegon, Mich.
BRANCH OFFICE AT CHICAGO, MARQUETTE BUILDING

California Not Yet Crowded.

In the January “O. P.,” Dr. Ashmore, who recently visited the Pacific coast, is quoted as saying, “The field is so well supplied with practitioners that to those seeking a location I would advise ‘Go somewhere’ else.”

Dr. Ashmore’s informant must be trying to find places for a great many friends. Even in Los Angeles there is room for all the first-class Osteopaths who are likely to come here. Highland Park, University, East Los Angeles, Garvanza and Vernon are really small cities within the Los Angeles city limits. More than one good Osteopath would do well in each of these places. I enclose a list of California towns of more than one thousand population with well-settled contributory country in which no Osteopath was located in November, 1905.

The population of each is nearly 1,000, or more than that, and the country surrounding most of them is thickly settled.

In fact, how to systematize your entire work. And it costs only a red stamp to learn all this. Write your name in the blank space. Cut out this advertisement, and return it to us to-day, now, while you have it in mind.

WILLIAM E. D. RUMMEL, A. M., L. L. B.,
Sec. and Gen. Manager.
Starts Movement for An Endowed College
By Guy E. Loudon, Burlington, Vt.

I THINK all will agree that an endowed institution is in a position to do better work than one which depends upon its direct revenue upon tuitions received from students alone. If any argument were required to support this statement, the first and strongest would be that every college or university of first rank in academic and professional work has already an endowment fund to supplement revenues derived from tuitions and other sources, and is constantly striving to increase said endowments.

If this is good “sauce for the goose,” I would like to see it tried on our “gander.” I wish you would know that this will mean plenty of work, and a number of years of time to prepare this spread, but I am convinced that we should be up and at work, if we hope to place osteopathy before the world as a scientific and distinct school of medicine.

I am disposed to think that it is less of an undertaking for us to carry on an endowment project than it was for the few osteopaths of ten years ago to have accomplished what they have and we have done since that time. Ten years ago we were recognized in a single state in the union; to-day we have our own laws in one-half the states and decisions in our favor in many others. We are able to work, unmo­tested by endowment funds from any institution or the remaining states. From a scattered handful of osteopaths ten years ago we can say that we are now in the thousands; having but a few friends then, we have hundreds of thousands. Being the child of poverty a little more than a decade ago, Osteopathy is now able to point to millions of dollars of wealth among its devotees.

Why, then, is this such a stupendous undertaking? For one, I believe it is not only pos­ible, but that in a comparatively short period we will see us in possession of an up-to-date college of osteopathy, which will be largely supported by an endowment fund, contributed by the profession and its friends.

No reasonable thing is impossible, if three or even two thousand intelligent men and women pledge themselves to work for this thing. Can any one say that our endowment project is not reasonable? I believe that there are three thousand Osteopaths who would contribute to this cause, if it were brought to their attention. Can any one believe there are five hundred Osteopaths who would glad­ly take an active interest in bringing the matter to the others who are the hundred Osteopaths and their friends. I believe there are as many patients as there are Osteopaths who would gladly contribute from $10 to $50 to the fund. To make a more lucid state­ment, I will say that in my opinion there are six thousand people in the United States who would contribute to our endowment fund within the present year if the subject were intelligently handled.

I asked permission from Dr. A. L. Evans to start this movement in our state and the other New England States under the management of the Northeastern Association. His excellent paper on “Organization,” which he read on this subject, was the greatest cause of my becoming interested at this time. He gave me permission to start the work, and promised his assistance in every possible way. My plan to secure pledges from other osteopaths can be reached between now and the A. O. A. meeting; to arrange the data so the associa­tion might know what had been done, and have something definite for the Association to take up the work in a systematic man­ner. Steps could be taken by the various state associations to start the work, and it is hoped that the officers of the associations will do their best to get the work under way.

Every Osteopath to whom I have spoken or from whom I have heard has said he thought an endowed school was what we needed in the profession. Several have contributed and others have promised contributions. I have stated of the opinion that we should wait until we could get some large amount of money or prop­osition before we take up the work in a systematic matter. He thought that if a small state like Vermont should start the project with only a few hundred dollars, it would do the cause more harm than good. He also thought that we should allow a person to pledge a sum to be paid in instalments, rather than all in one year. This last point is good. Any one could do that if he prefers. It is understood that we shall allow a person to designate an annuity to said fund, all well and good.

As to the postponement until a large sum is in hand, I am of the opinion that the more raise we from small pledges, the sooner we shall see the large sum materialize. If one state has only one dozen Osteopaths and can only contribute a few hundred dollars, even though their individual average would be about what a larger state’s individual average is, I see no reason why the small state should wait for a big brother to “get busy.” Little Vermont was “big” enough to start recognition for us in a legislative way and other states have followed. Let us hope that she will be followed by her brethren in this work.

Besides, it is easier for a small party to agree to a first move than it is for a large one. I think Vermont will have a contribution, which will average $25 each for the first call, for every Osteopath in the state. If that aver­age could be maintained as an average for every Osteopath in the United States we would have about $100,000 to place at interest. The interest on that sum would be a nice little thing to even up for a small beginning, instead of the proposed idea of the friend who advised waiting for something big to start with.

I have spoken to five patients, and only five, so far. They all said they would gladly give me financial support. I know of many others who will do likewise. I believe every Os­teopath has patients who will do the same.

Now, some may feel that this project will injure our private schools. I do not believe so. The proposed school will be managed by the A. O. A., and it stands to reason that that organization, composed of graduates from private schools, will be friendly to their alma maters. The endowed school will be to our profession what Harvard, or Johns Hopkins, or the College of Physicians and Surgeons is to the medical profession. Besides, who can tell what the next ten years will bring to our present schools? Judging from past experi­ence, it would seem prudent for the A. O. A. to prepare for any emergency that may arise.

Believing that we can certainly accomplish this object, I am, with a feeling that I am censured by some, encouraged and supported by many, and that by working for this project I am doing our cause a service, which is ample recompence for all the labor I am giving it, most sincerely yours.

Guy E. Loudon, D. O., April 19, 1906.

A Novelty in Awnings.

Doctors who are in need of either awnings or blinds would do well to get The New Model Awning of Chicago which is the latest novelty in the way of a household article. The picture shown herewith tells the story. It is an awning that works on a ratchet and will roll up out of sight just like a blind. The ad­vantages of such an appliance are obvious.

The Massachusetts College of Osteopathy
BOSTON

The present course of study consists of THREE YEARS OF NINE MONTHS EACH (no option)

The TWO YEAR COURSE was inaugurated September, 1902. Next term opens September 10, 1906. No mid-year class. No student admitted except on acceptance of applica­tion.

The individual instruction to students, a YEAR of clinical demonstration and practice, Osteopathic and Surgical, the new Osteopathic Dispensary located in the north end, and the dissection privileges, all for but $150.00 per annum, including hospital opportunities, and the exceptional Osteopathic Clinical Practice afforded by the College, will be of untold value to the graduate, as his clinic is REAL PRACTICE.

Tuition $150.00 per annum, including dissection. Tuition for A. O. A. member counts.

Write for Application Blank, Catalog, College Journal and information to

Massachusetts College of Osteopathy
688 Huntington Ave., Dor. Vancouver St.
BOSTON, MASS.
THE OSTEOPATHIC PHYSICIAN

order patrons in a "mailing tube" and weighs seven pounds complete.

The New Model awning is made up in sizes from 24 to 45 inches ready to ship the day the order comes in. Special sizes are made to order up to 64 inches (wide).

To order send the exact width of your window sash. State whether your building is wood, brick or stone. This awning is then sent to you all ready to put up. There are no parts to get out of order; nothing to get stuck or jam; they keep clean and will last longer than the old style article; and are noiseless. This awning is manufactured exclusively by Walger Bros., 1408 North Halsted street, Chicago, who will be pleased to supply your wants on receipt of the price which is very cheap for such a good article, as follows:

Fairness! Freedom! Fearlessness!

EDITORIAL.

"How to the line, let chips fall where they wilt."

Medical Scoffers on Lesions.

Dr. Mark Schrum received a hearty laugh from the medical men at the New Jersey public health hearing when he stated that appendicitis may be produced by a strain of the spinal column. We wonder, also, if these worries would give the laugh to Dr. McConnell's microscopic slides showing not only inflammation in organs, with hemorrhage, but lameness, goitre and complete loss of function such as vision, hearing, speech, etc., produced artificially in like manner. The day of the scoffer will soon be at an end.

Polk's Directory Insults Osteopaths.

We are indebted to Dr. L. A. Kissinger of Beloit, Kansas, for calling our attention to a new slur upon the osteopathic profession that comes from R. L. Polk & Co.'s Detroit office. This is in the shape of an invitation to osteopathic physicians to pay from $2.00 to $600 apiece for the special distinction of having their names printed in the next edition of Polk's Medical Directory in a department all by themselves. Polk & Co. do not regard the D. O., as entitled to rank with the M. D., as a physician and he is not invited to be enrolled among the leading medical men, insurance, mediates, electives and other drug physicians as a doctor on equality with the representatives of all other schools. Oh, no! That would no doubt be some of the 15,000 other physicians whom Polk & Co.—despite hybrid views and widely antagonistic practices—dignify by printing in one list as doctors. So, the osteopath is not invited to take his place as a doctor, but a special cataloguing in the rear is to be provided for him—or at least so many of him as will pay the fee of $2.00 to get this great honor done to him! We hope that the members of the osteopathic profession will treat this sort of a slur with the dignified silence that it deserves.

The Time to Join.

Now is a favorable time to join the American Osteopathic Association if you're going to. The trustees announce that they will enroll new members now—three months before the end of the "fiscal year" of the association, and give a receipt in full for the obligations of the year to come for $5.00. This includes subscriptions to the Journal of the Association and The Osteopathic Directory. In other words, if you join now you'll get the balance of this year free.

Then there is that grand good meeting at Put-in-Bay, which will be such a pleasure and source of profit to attend, in August, and this pleasure will be doubly yours if you are a member of the largest club you've got to go there!

Membership in the representative society of the Osteopathic profession is a thing for practitioners to be sought for, and the receipt of a formal invitation ought to be all that anybody should require to get in. Membership in the A. O. A. is one of the biggest for which you've got to work. If there has been any difference I've got to be had anywhere. The O. P. joins with the officers in wishing all our good people who are still not members to join. Membership, which will cost you only $5.00, if you are the kind of member the association would just will it to be so—and work to get practitioners to come in. Shall not the total enrollment be greater at Put-in-Bay than it was at Denver, a year ago?

Tip to New Grads.

New graduates will be helped amazingly in the arduous and work of practice-building by using "Osteopathic Health."

A Medical Wet Nurse.

Dr. A. P. Davis, our one-time Osteopath, who seems to have studied, professed, practiced and written about everything from maganism and hypnosis to chiropraxy, excepting only Dowism, to date, seems to have offended Foxy Grandpa Palmer, the original chiroprax, by having founded a new cult, which he calls neuropathy. He refers to the "chiropractic method of neuropathy" in one of his writings and gets called down by Grandpa, who says: "Inasmuch as the chiropractic method existed and was taught to Dr. A. P. Davis long before he had thought of replacing the word 'chiropractic' with neuropathy, it would have been more appropriate to have said 'the neuropathic method of chiropractic.'"

Foxy Grandpa Palmer, doesn't know Dr. Davis and his multitudinous medical lineage as well as we Osteopaths, or he would never dream of calling him down in such a manner. A man who in ten years has not only discovered and espoused it so loudly and vigorously, ought to be allowed special privileges.

When Dr. Davis wrote "Osteopathy Illustrated," back in 1892, when the osteopathic profession and its societies of these one-time practitioners, were in the cradle of infancy, we thought we had seen a new recruit worth having; but before we had got his big book read through he had become a torch-bearer for some other sort of practice. After coming to Osteopathy he had assimilated the "raduates will be helped amazingly in the arduous and work of practice-building by using "Osteopathic Health.""

Torch Bearers to Quackery.

From several Osteopaths the past six months we have received chiropractic literature with marked pages. One, the October, 1905, number of The Chiropractor, contains two articles by Dr. J. L. Hively of Elkhart, Ind., appearing in this number both by a half-tone portrait and his article to the effect that Osteopathy and chiropraxy are entirely dissimilar, have nothing alike and the chiropractor is represented by this D. O. as being able to do things the Osteopath cannot.

The opening sentence of Dr. Hively's article does not ring true, however. He says: "I have known many of the Chiropractic students at the A. T. Still School of Osteopathy (meaning, of course, the A. S. O.) and a short one at the Palmer College of Chiropractic to judge and appreciate the difference between the two schools as taught and practiced, and have come to the conclusion that there is a big difference between them.

Dr. Hively herein makes false pretences to establish his owncredentials. He did not take a two-year course at the A. S. O. He was there just from Monday to Friday at the school, at Kirksville, for three terms, and came over to the A. S. O. for his senior term, graduating Jan. 31, 1901. This is a time when he was twenty-two, but he publicly advertises that two years of study under Dr. A. T. Still and his professors wasn't equal to a few weeks under D. D. Palmer, chiropractor, the misrepresentation is worth correcting.

It is worth emphasizing, too, that people who have ever been representative Osteopaths don't do these things. The "half-bake" or "quarter-bake" is very apt to.

Furthermore, we hear from Indiana that Dr. Hively was suspended from the State Medical Society for not paying his dues on account of other matters entirely; so it is just as well to let it be known that this D. O., who is a satellite of D. D. Palmer, and one of his torch-bearers, is not representative of the Osteopathic profession.

One "M. R. McBurney, D. O."
also played up in this paper as a converted osteopath, but rather false of a D. O.

There were two McBurney sisters who are graduate Osteopaths, now missionaries in India, and we think it likely this is their brother, as we have had a report from Pittsburgh that he was taken in some quarters for a D. O.

It fills us with pain also to see that Dr. E. Ellsworth Schwartz, of Coldwater, Michigan, is running after the same false gods. Dr. Schwartz is a good fellow and ought to be taught the name of D. D. Palmer; he is an osteopapist and the A. O. A. set. Dr. Schwartz has likewise been having his picture printed in Palmer's magazine and bestowing fulsome testimonials that these chiros know more than Osteopaths. He is a graduate of the Northern Institute of Osteopathy of 1899 and has had opportunity to know better.

The question that naturally suggests itself is: What is the relation of the Osteopathic profession and its societies of these one-time Osteopaths who later espouse something else and go on to confess their error to reflect disparagingly upon Osteopathic practice? If a D. O. becomes a dispenser of drugs, we know what to call him; but if he joins Palmer or Dow—"where is he at," anyhow?

That Great Summer Meeting.

Everybody who ought to come to the Put-in-Bay, Lake Frie, via Toledo, meeting. It will begin August 6th and last to the 9th. It will be in one of the garden spots of the world, on a beautiful island, famous a century ago as a dirt track horse race track, and where the other members of the family can visit, rusticate, rest and refresh, while you that attend the meetings also. Programs will be printed to the amount of $2.00, allowing the afternoon and night to society reunions, recreation, etc. Come and bring the family if you can.

The Program Will Be

MONDAY, AUGUST 6.
8:00 p.m.—Reception.
TUESDAY, AUGUST 7.
Symposium of Practical Treatment: (Clinic Demonstration of Technique).
THE OSTEOPATHIC PHYSICIAN

PAPERS.

1. Conjointivities—Dr. J. F. Spahnhurst, Indianapolis, Ind.
2. Urinis—Etiology, Pathology and Treatment—Dr. O. J. Snyder, Philadelphia, Pa.
3. The Treatment of Eczema—Dr. Morris Lynenheim, Chicago, III.
4. What Osteopathy Has Done With Tumors—Dr. C. H. Wells, Cincinnati, O.
5. A Few Cases of Mental Diseases—Dr. L. A. Lifting, Toledo, O.

Dr. Ella McNicol, Frankfort, Ind.
6. Promended Insomnia—Dr. R. B. Wolding, Des Moines, la.

THURSDAY, AUGUST 9.

(a) Cervical Region—Dr. G. A. Wheeler, Boston, Mass.
(b) Dorsal Region—Dr. W. W. Steele, Buffalo, N. Y.
(c) Lumbar Region—Dr. Josephine DeFrance, St. Louis, Mo.
(d) The Pelvis-Sacro, Coccyx, Immobinata—Dr. Vernon W. Peck, Pittsburgh, Pa.
(e) Thors and Vertebrae Correlated—Dr. George J. Helmer, New York, N. Y.

General Discussion.

Business.

9:00 p.m.—President's Address.

THURSDAY, AUGUST 8.

Practical Dietetics—Dr. H. H. Moellerling, Minneapolis, Minn.

General Discussion.

Osteopathic Applied Anatomy—Dr. M. E. Clark, Kirksville, Mo.

General Discussion.

Osteopathy as a Profession—Dr. J. H. Sullivan, Chicago, III.

How Osteopathic Lesions Affect Eye Tissues—Dr. Louise Burns, Los Angeles, Calif.

Business.

8:00 p.m.—Alumni and class reunions.

TUESDAY, AUGUST 7.

(a) Infant Nursing—Dr. Alice Patterson Shibley, Washington, D. C.
(b) Osteopathic Treatment of Infant Disorders—Dr. Louise P. Cragle, Cleveland, Ohio.
(c) Prophylactic Treatment of Children—Dr. Louise A. Griffin, Conn.

General Discussion.

Emergence.

(a) Haemorrhages (lungs and uterus)—Dr. E. C. Pellicer, Minneapolis, Minn.
(b) Unconsciousness or Insensibility—Dr. Edgar D. Heise, East Berlin, Ont., Canada.

General Discussion.

Emergence.

(a) Polysis (gynecological)—Dr. Ella D. Still, Des Moines, Iowa.
(b) Abdomen—Dr. S. A. Ellis, Boston, Mass.

General Discussion.

Osteopathic and Surgical Diagnosis.

(a) Pelvis (gynecological)—Dr. Ella D. Still, Des Moines, Iowa.

General Discussion.

Osteopathic Lesions in Acute Respiratory Diseases—Dr. C. M. Turner Hulett, Cleveland, Ohio.

Prize Essay (announcement).

9:00 p.m.—Alumni and class reunions.

At the banquet Dr. Ambrose D. Ray was toastmaster. The toasts were: Dr. Thos. L. Ray, "Respectively"; Dr. James L. Howell, "Prospective"; Dr. Chas. E. Still, "Our Educational Policy"; Dr. A. Virginia Spates, "We Women Doctors"; Dr. Albert P. Terrell, "The Future." The speeches were limited to ten minutes.

Iowans Poll for Policy.

President S. B. Miller of Cedar Rapids, Iowa, has sent out this notice to his state D. O.'s:

Our efforts at securing new legislation have failed. We are now just where we were before. Please vote on the following:
1. Do you prefer a member on state board of health and medical examiners or a separate osteopathic board?
2. What action or action do you suggest for the state association in convention May 23 and 24, in reference to this matter?

The program of the eighth annual meeting of the Iowa Osteopathic Association, which was held at Des Moines May 23 and 24, is out and shows plenty of interest.

On May 24 Dr. W. J. Cook's address, Dr. S. B. Miller; Osteopathy, Dr. G. H. Gilmour, Sioux City; Clinics, Dr. T. J. Ruddy, Des Moines; Compared Therapy, Dr. J. S. Baugh cattle Wells; "The Fifth Nerve," Dr. R. B. Wolding, Des Moines; Osteopathic Profession, Dr. J. R. Bullard, Marshalltown; Neurones, with Cases, Dr. G. E. Moore, Des Moines; Obstetrics, Dr. Nellie Olds-Haigh, Des Moines. On May 24, 9 a.m., Osteopathic Surgery, Dr. A. G. Hildreth, St. Louis; Professional Ethics, Dr. U. M. Hibberts, Grinnell. On Thursday afternoon or evening the association goes to Kirkville, Mo. (special car and special rates), to attend the tri-state meet and dedication of the new hospital, May 24-26.

Catarrhal Conditions

Daly St. and Mission Road, LOS ANGELES, CAL.
THE THOMAS JEFFERSON BIBLE

Every person of education will be interested in knowing of this contribution to scholarship by the author of our Declaration of Independence and the Third President of the United States. This little volume, as is evidenced by Mr. Jefferson, is extracted textually from the Gospels of Matthew, Mark, Luke and John. Mr. Jefferson clipped, re-ranged and pasted in a scrapbook verses and parts of verses from the Four Evangelists so as to make a condensed, chronological, simple and beautiful story of the Life of Jesus, from his birth to his death, and giving all his moral precepts and utterances. The compiler omitted "every verse or paragraph that to his mind was ambiguous or controversial, and every statement of fact that would not have been admitted as evidence in a court of justice." The net result is a treasure-book that will appeal to every person of culture regardless of religious belief.

The Life and Morals of Jesus of Nazareth

The Jefferson Bible Society
FIRMENICH BLDG., CHICAGO

P. S. - Osteopaths having "charity patients" on hand who wish to become self-supporting and able to pay for their treatments can enable them to do so immediately by becoming our agents. The Jefferson Bible serves as practically the only business card it. Put such patients in touch with us at once. We will enable them to make $3.00 per week.

THE OSTEOPATHIC PHYSICIAN

Dr. Barnett Tests Indiana Laws.

Dr. John Ambrose Barnett of Indianapolis, Indiana, still '05, has asked the Superior Court to issue an alternative mandate to compel the Indiana State Board to give him an examination and grant him a license to practice. This is the first shot to test the constitutionality of the present Indiana law, which now demands D. O.'s to be accorded the privilege of examination must have attended an osteopathic school giving four graded courses in four separate years amounting to at least 796 weeks of thirty-six hours each, and where at least 42 months shall have elapsed between the matriculation and graduation of the applicant. This is a palpable absurdity, as no such school is or has been in existence. This law has been in effect since April 1, 1905, and is having the effect of putting up a Chinese wall around Indiana, as one Osteopath puts it. It is the belief of many D. O.'s that this law is unconstitutional.

Science at Pacific College of Osteopathy.

The last meeting of the Biological Section of the Southern California Academy of Sciences was held at the Pacific College of Osteopathy. The election of officers for the ensuing year was held, resulting in the election of Dr. C. A. Whiting as chairman of the section and Dr. Carlo H. Phinney as secretary. The chairmanship of the section carries with it a seat on the board of directors of the academy. The lecture of the evening was on the "Relationship Between Molds and Algae," recounting the conclusions of his laboratory work.

Prohibitive Law in Manitoba.

Dr. Charles F. Eagles of Brandon, Manitoba, advises us that Manitoba has passed a law designed to stop the practice of Osteopathy. The clause referring to us, section 62, reads viz.: "It shall not be lawful for any person not registered under this act, for hire, gain or hope of reward, to practice medicine, surgery, osteopathy or to treat or profess to treat another, or to prescribe or recommend, or to profess to prescribe or recommend, any drug, medicine, appliance, application, operation or treatment for any injury to or any physical or mental ailment of, or any disease, infirmity or deformity of another." This seems to be a very irksome, unjust and unreasonable piece of legislation. Our D. O.'s are casting about to know what to do in this dilemma.

In Old Kentucky.

Dr. Carl P. McConnell of Chicago gladden the sixth annual meeting of the Kentucky Osteopathic Association by making an address on "Osteopathic Experimental Work," recounting the conclusions of his laboratory work.
THE OSTEOPATHIC PHYSICIAN

work with osteopathic lesions. Dr. E. R. Booth of Cincinnati talked about "Facts and Fancies." Dr. K. W. Coffman read a paper, "Shall Osteopaths Be Surgeons?" Dr. Carter on "Lumbar Kyphosis and Sequelae"; Dr. Jerome Knowles, "Locomotor Ataxia." A banquet was the thanks to the guests at "The Seel­ luh." Officers elected were: Dr. H. H. Carter, Shelbyville, president; Dr. E. O. Vance, Lexington, vice-pres.; Dr. H. E. Nel­ son, Louisville, secretary-treasurer; Dr. R. H. Coke, Louisville, assistant secretary-treasurer.

The Call of Indiana.

Dr. E. C. Crow, secretary of the Indiana Osteopathic Society, sends out this good letter to boom attendance at the state meeting.

"There is a good time coming—May 18th—when the mid-year meeting of the I. O. S. comes to pass. If you want to feel the touch of old A. S. O. books and drill again, if you want to sharpen your battle-axe for warfare on disease, if you want to learn how to do things, and know as much as the other fellow will know, then don't miss it. The meeting will be at Lafayette. You will hear something of the program later. By order of program committee.

We don't see how the Indiana folk can stay away.

Fraud Order Against Doctor.

Dr. J. Sullivan Howell, the Chicago M. D. who used to take so much space in the Chicago papers advertising himself as an Osteopath and who occasionally confused his identity with Dr. Joseph Sullivan, owing to the similarity in names, has been the subject of a fraud order in the United States post office, which has cut him off from the use of the mails in exploiting himself and his health schemes. Recently he has been giving lectures on the subject of "Osteopathy" and other things by mail, it is said, under the name of the Apathistic Institute. Perhaps our profession can apply the same federal medicine in other localities to keep the name of Osteopathy from being smudged under false pretenses.

Give This Bunch Chloroform.

The Union College of Osteopathy, to be located at 1200 Chapline street, Wheeling, for the purpose of establishing a school for instruction in the science of osteopathy, chir­ practic, naturopathy, anatomy, physiology, chemistry, etc., and all sciences and arts in­ cidental thereto and to grant certificates and diplomas and confer degrees of doctor of osteopathy; to maintain clinic treatment rooms and sanitariums. Capital, $5,000; incorpora­ tors, Dr. Wm. George, New York; Dr. E. W. Boyd, Wheeling; D. Pomer, Park Ridge, N. J.; W. F. Buddenham, Cincinnati, and Dr. S. J. Markert, New York.—Charleston, W. Va., May May 15.

Death of Dr. Clara Milner.

Dr. Clara Milner, 4300 Ellis avenue, Chicago, died May 14th of angina pectoris. She had given up practice a month ago, but was feeling exceedingly well up until the night of her death. She suffered from three successive attacks of pain, accompanied by sinking spells, and did not rally from the third. Dr. Fred W. Gage was called and gave relief from the earlier attacks, but aid was unwailing at the end. Dr. Milner was an A. S. O., 1901, grad­ uate. Her husband was at Twin Falls, Idaho, where he is engaged in irrigation work, and only the deceased's two young daughters were with her when the end came.

Osteopath Called as Expert.

I have been called into court down here as an expert witness in a damage suit, writes Dr. M. C. Hardin of Atlanta. An old man came to my office seeking treatment for rheu­atism in the hip. I found he had fracture

Prices: Cloth, $3.00; Half Morocco, $3.50

WE MAKE BLOOD AND SPUTUM ANALYSES

We will continue to make analyses of sputum and urine for the profession, but only upon the previous agreement for the same.

We offer the following:

A. Complete sputum analysis—$1.50.
B. Complete urine analysis—$2.00.

We are constantly making improvements in our laboratory. We now offer a number of new services, and would like to offer the following:

1. Complete blood analysis—$1.50.
2. Complete blood analysis with Wassermann test—$2.00.
3. Complete blood analysis with Kahn test—$2.50.

For specific directions for the collection of specimens and for more complete information, write us.

We are working in close cooperation with the botanists of the University of Chicago, and are now preparing a guide for more specific directions for the collection of samples. This is imperative for best results for you.

Our laboratory is equipped with drawing tables, camera lucida, microscopic, oil immersion objectives, Bausch & Lomb scope, every chemical needed—completely up-to-date, but we have no time and do not make examinations of other tissues.

May we serve you? We are prepared to.

Library Recognizes Osteopathy.

The Free Public Library of Trenton, N. J., has ordered an Osteopathic Directory for its medical department. This is the library used by the medics.—Dr. Walter J. Novinger, Trenton.

D. O. Health Officer.

Perhaps the profession at large will be interested in knowing that the town council of College Springs, Iowa, elected for health officer Dr. S. R. Henderson, S. C. O., ’00, at their recent election.—Mary A. Finley, D. O., College Springs, Iowa, May 13th.

D. O. Gets Small Damages.

Dr. Winfield O. Lewis, who sued the International Railway company for $2,000 at Buffalo, N. Y., on the ground that he has been incapacitated for osteopathic practice by an accident while alighting from a car, was awarded damages of $650 only, October 6.

Found Oklahoma City Society.

The Oklahoma City Osteopathic Association was organized April 26th to hold monthly meetings, with these officers: Dr. Mahaffay, president; Dr. Rousse, vice-president; Dr. Sturgess, secretary and treasurer.

Want Law on the Coast.

The Washington Osteopathic Association decided last week to ask the next legislature for a law to regulate the practice of osteopathy.

Concrete Definition.

Tommy—“What is pessimism?”
Mr. Tucker—“It’s—it’s something like rheumatism, Tommy.”—Chicago Journal.

A. O. A. Department.

Appeal for Earthquake Victims.

The earthquake and fire which recently devastated San Francisco wrought great injury to a number of the members of our profession practicing in that city and nearby points. Some of them lost their libraries, in fact, everything in their offices; many of their accounts will be rendered uncollectable; they will probably have little practice for months to come, and much of what they have will not be profitable to them. Some of them, very likely, will have to locate in other places and a move is always expensive. In the presence of such a calamity I feel that the members of the profession who are enjoying prosperity will want to help plant their unfortunate brethren again upon their feet. To that end I have asked all who are able, to contribute as promptly and liberally as possible to their relief. Contributions will be sent to the Treasurer of the A. O. A., Dr. M. F. Hulett, Wheeler block, Columbus, Ohio. Arrangements will be made to have these funds distributed under the auspices of the San Francisco Osteopathic Society.

A. L. Evans, President, A. O. A.

Advantages of Joining Now.

I wish to call attention to the fact that the constitution of the A. O. A. provides that all who join that organization within three months prior to an annual meeting will have their membership extended to the close of the next annual meeting following it. Those who apply at once, and are elected to membership, will receive the June, July and August Journals for the coming year. Any osteopath who desires the benefits of membership in the A. O. A. during the coming year, we earnestly request the members of the profession who are enjoying prosperity to help plant their unfortunate brethren again upon their feet.

WISCONSIN LICENTIATES WANTED!

Is your “Lost and Found Osteopaths” department still in working order? I wish to ascertain the whereabouts of the following, who are Wisconsin licentiates: Barrett, Roy F., Milwaukee College; Maack, Wm. F., Columbia School; Wingert, Leo H., Columbia School; Hagler, Blanche, Northern Institute; McFall, Geo. F., Northern Institute. I would appreciate any information relative to the above.—Yours fraternally, Franklin Fiske, D. O., 558 W. S. O. A., Portage, Wis., May 10.

CENTRAL COLLEGE OF OSTEOPATHY

729 TROOST AVENUE

THE AMERICAN COLLEGE OF OSTEOPATHIC MEDICINE AND SURGERY

Member Associated Colleges of Osteopathy

This College is chartered to teach Scientific Osteopathy applied to the healing art in all its branches. Its charter requires us to preserve the Osteopathic principle in therapy, surgery, and obstetrics as an INDEPENDENT PHYSIOLOGICAL SYSTEM.

Courses:
- General osteopathic; for physicians
- Post-graduate in surgery, obstetrics and specialties
- Specialties: Each student must dissect one lateral half of a cadaver—material free.

Clinical practice for all students at the Infantry for ten months, with attendance at Cook County Hospital for one term free to students.

Infirmary Treatment and Surgical Work a Specialty.

Send for copy of the Catalogue and other osteopathic literature free.

THE COLLEGE, 445-447 W. Monroe St., Chicago, Ill.
New Term Begins Sept. 1, 1904.

150 copies per month, delivered, with envelopes, $4.00 on single order.
250 copies per month, delivered, with envelopes, $5.00 on single order.
500 copies per month, delivered, with envelopes, $6.00.

JUNE "O. H." Is Strong

June "Osteopathic Health" is an artistic and wholly excellent number. It opens with three pages of short editorials which are as natural with much importance to patients and public, mainly considering the importance of a correctly adjusted spine as a basis for health.

Constitution Curable, Preventing Apoplectic Strokes and Osteopathy for the Eyes are brief and pointed stories calculated to awaken interest.

A Word to Old Folks, from the pen of Dr. Frank R. Heine, is good advice and full of wisdom for all past fifty.

The Great American Fraud is a brief review of the excellent crusade being conducted by Collier's Weekly against the patent medicine business and the too free dispensation of poisons.

How to Keep Well quotes Elbert Hubbard and drives the point home convincingly that the basis of ill-health is the osteopathic lesion, and the way to keep well is to remove the lesion and live wholesomely.

Parable of the Stupid Engineer is No. 2 of the series now being run from the editor's pen and it contains the description of fright, pain, killing, the opposite phase of drugging from that considered in the first parable, which was over-stimulation.

Osteopathy in Rheumatism, by Dr. L. H. Rheem, is a very interesting and profitable article. It will catch the attention and win faith from all rheumatics. It is a very original article.

How Osteopathic Patients Are Treated is a rather full description of taking treatments, to differentiate Osteopathy from massage and set the minds of women at rest about that bugbear of undue exposure. This article is printed by numerous requests from an earlier number.

June is a superior magazine. What can we send you?

Made a 3-Year Contract.

We recently closed a contract to supply one thousand copies of "Osteopathic Health" a month on a five-year contract with one enterprise firm of D. O.'s in the Northwest. That is doing the education right—and yet some Osteopaths seem to begudge giving the public a hundred magazines a month as a tonic for practice.

PUBLICITY JOTTINGS.

"The only difference between a rut and the grave is the length and breadth," says a modern advertising prover. The Osteopath who uses "O. H." for his publicity will never fall in a rut for it is always new and attractive, and never twice the same.

JUNE

The ideal time is at hand to treat chronic patients. June "Osteopathic Health" is designed to get them started.

CHICAGO
Orthodox Osteopath.
Dr. Albert Fisher, Sr., gave a talk on Orthodox Osteopathy April 26th before the Chicago Osteopathic Society.

Personal.

Dr. John T. Downie and his wife, of Scranton, Pa., are away for a visit to their son in the -summer. They expect to sail for Europe on or about the 16th of July and be gone six or eight months.

Dr. C. A. Upjohn, assistant secretary of the A. O. A., has had an attack of appendicitis, but it is not a serious matter and he is improving.

Dr. Arthur H. Paul, of Bridgeport, Conn., has opened up a branch office at the Pierpont, 42 West 33rd St., New York, N. Y., where he can be found in the afternoon and evening for examining.

Dr. Friederich called on "The O. P." this month. She has been traveling along the Pacific Coast for several weeks and has now and has again resumed practice at Winslow, Ariz.

Dr. Catherine McWhorter has just completed a post-graduate course at the A. S. O., and has opened up an office at 6317 Glenwood Ave., Chicago.

Dr. Emma B. Johnston is practicing temporarily at College Springs, Iowa, during the prolonged illness of Dr. Mary Finley.

Dr. W. M. Haines, of Faribault, Minn., has opened up a branch office at Waterville, Minn., and is doing nicely at both places.

Dr. J. F. Peck, of Chehokan, I. Y., after completing a post-graduate course at the A. S. O., has opened a small private practice in his native village.

Dr. Alice Vickers of Sumter, S. C., who has been ill for some time, is fully recovered now and able to take on a larger practice.

Dr. Laura F. Bartlett of Alpena, Mich., has been unfortunate in losing her office fixtures by fire.

Dr. O. H. and Fannie E. Carpenter have greatly enlarged their practice since the last announcement, and are doing nicely at both places.

Dr. Homer Woolery of Bloomington, Ill., has broken down under the strain of a very heavy winter practice, and has been compelled to retire permanently from practice.

Dr. Lillie K. Means, having completed a post-graduate course at the A. S. O., and will again resume practice in June.

Dr. Francis K. Byrkit, dean of the Massachusetts College of Osteopathy, having resigned, the position has been given to Dr. Howard T. Crawford.

Dr. F. P. Young of Kirkville, Mo., has been nominated by the republican party of his county as a candidate for representative in the legislature.

The owners of the Osteopathic Sanitarium at Cambridge, Mass., are preparing to erect a twenty-room dormitory and a surgical amphitheater.

Dr. F. G. Smith has had a brief but very severe illness, but has fully recovered now. The prolonged winter in Seattle, Wash., has increased so greatly that he has found it necessary to secure the services of Dr. J. E. Ellen Parish.

Dr. Lelia L. Hays has again resumed practice at Mattoon, Ill., and is doing prominently since the illness of her husband.

Dr. W. F. Hardt, of Chicago, a graduate of the A. C. O., has recently graduated from the Chicago Osteopathic College.

Dr. Hetty Jenison of Greenview, Ill., recently sustained a severe illness in her daughter and mother.

Dr. Vivian H. Price has just returned to his practice at Covington, Tenn., having been away on account of a serious illness of his father.

Dr. Wm. G.lassen of South Haven, Mich., has gone upon a long journey on account of the death of his sister.

Among the North Western Osteopaths who called upon "The O. P." during the past month were: Dr. J. E. Longpre, Kankakee, Ill.; Dr. E. L. Longpre, Kankakee, III; Dr. Franklin Fiske, Portland, Me.; Dr. Florence A. Patterson, Winona, Minn.

Removals.

Dr. P. H. Miller, from Mercer, Pa., to 114 S. Morgan St., Waynesburg, Pa.

Dr. H. W. Badger, from 157 Glen St., to The Gibson Bldg., 150 Glen St., Glenns Falls, N. Y. 15.

Dr. N. A. McRea, from Clinton, Mo., to Licking, Mo.
