

2026-2027 MSOT Book List

This is the book list for the MSOT program curriculum as it currently exists. Please note this list is always subject to revision as new editions are released or when changes are made to courses. If the list is revised, the changes will be given to you a minimum of two months before the course begins. Books for each course are required unless it is specifically noted that the book is only recommended. Each student must have these texts during the entire program. Therefore, it is highly recommended you purchase these texts instead of renting them. These books are not listed by the courses in which they are used in order to save space but they will be on your course syllabi.

Program Level Required Books:

Rev 03/2026

Course	Fall Semester	Textbooks
Year 1	Fall Semester-Long Courses
