SGA Bedside-to-Bench Panel Discussion

On October 8, 2009, the Student Government Association (SGA) on the Kirksville campus hosted a panel discussion regarding how to turn clinical questions into research opportunities. The participating faculty panelists were Drs. Yingzi Chang from Pharmacology, Bill Sexton from Physiology, and Eric Snider from Osteopathic Manipulative Medicine. The panelists answered questions relating to balancing research with other responsibilities, funding resources, and collaborative opportunities. They indicated that the pursuit of research requires commitment, motivation, and flexibility. They also stressed that many programs exist at the University to encourage student involvement in research.
**Presentations and Abstracts**

* indicates presenter

**Head J**, Powelson S*, Wheeler BK, Cox C. Interprofessional geriatric home visits: learning teamwork for improved patient safety. Poster presented at: Sigma Theta Tau International Nursing Honor Society of Nursing 40th Biennial Convention; October 31-November 4, 2009; Indianapolis, IN.

Olsen J [student]*. Field cancerization and multistep carcinogenesis: an explanation for a severe case of oral squamous cell carcinoma. Poster presented at: American College of Physicians Arizona Chapter Scientific Meeting; September 26-27, 2009; Tucson, AZ.

Congratulations to the ATSU Student Research Poster Winners

At the American College of Physicians Arizona Chapter Scientific Meeting in Tucson, AZ, from September 26-27, 2009, KCOM student, **Jonathan Olsen**, won first place in the Medical Student Poster Presentation competition for his poster titled: Olsen J. Field cancerization and multistep carcinogenesis: an explanation for a severe case of oral squamous cell carcinoma.

At the American Dental Association Annual Session in Honolulu, HI, from October 9-12, 2009, ASDOH student, **Casey Jones**, won third place in the Category I: Clinical Science/Public Health Research section of the ADA/DENTSPLY Student Clinician Research Program Competition for her research poster titled: Jones C, Wang Z, So P, Herman N, Li Y, More F, Moursi A. The effect of intensive fluoride varnish treatment on *Streptococcus mutans* in pre-cooperative children with early childhood caries: a pilot study. The poster was the result of a Summer Research Experience that Ms. Jones participated in at New York University.

Congratulations to the ATSU Student Competitors

KCOM students, **Jean Hansen, Patrick Noonan**, and **Joshua Horowitz**, participated in the Doctor’s Dilemma contest at the American College of Physicians Arizona Chapter Meeting in Tucson, AZ, on September 26, 2009. Their team finished in fourth place, competing against several teams from residency programs.
