Introduction

The Annual Security Report is prepared to meet the requirements of the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act (Clery Act). The Clery Act is a federal law that requires colleges and universities to disclose certain timely and annual information about crime and security policies.

A.T. Still University (ATSU) is committed to providing a safe campus for students, faculty, staff, and visitors. Safety is a shared responsibility within our campus community and we rely on every community member to contribute by reporting crime and suspicious activities in a timely manner. One of the best protections against campus crime is an aware, informed, and alert campus whose members practice safety on a daily basis. This information is provided to you in an effort to help support a safe campus for our community members.

Data Collection/Publication of the Clery Report

The Clery Act requires an annual report to be prepared that includes crimes, arrests, and student disciplinary data. Members of the campus community will be e-mailed directly about the availability of this report. Prospective students will be made aware of this report during orientation. Prospective employees will be provided this information through the employment process. Additionally the report will be available on the ATSU Emergency notification website at https://sites.google.com/a/atsu.edu/atsu-mesa-emergency-notification?AuthEventSource=SSO

Security

ATSU Mesa Ariz. campus employs a security supervisor who reports to the director of Facilities/Plant Operations. The security department’s responsibilities are to enforce rules and regulations established through policies and procedures adopted by ATSU to ensure campus safety and security. The security department is composed of unarmed, uniformed security officers equipped with security phones capable of contacting Mesa Police Department (MPD), Mesa Fire Department (MFD), and other emergency personnel. ATSU security conducts foot and vehicular patrol of the campus 24 hours a day, 365 days a year, providing both emergency and nonemergency assistance to students, faculty, staff, and visitors.

Crime Prevention

Throughout the year, security utilizes an incident reporting system of all crimes on campus. The cooperation and involvement of students and employees are vital to the success of a campus security program. No security system is perfect, and no campus is 100-percent safe. Everyone must assume responsibility for their own personal safety. Be smart about your behavior on campus and take some basic common-sense precautions to minimize your risks.

- Never leave personal belongings in study rooms classrooms and other public areas.
- Cars should be locked and parked in well-lighted areas with valuables placed in the trunk.
- Whether driving or walking, use well trafficked routes and avoid dark shortcuts at night.
- Never walk alone at night—this goes for both women and men. Walk with a friend, colleague or roommate. If no one is available, contact campus security and arrange for an escort.
- Program campus emergency numbers into your phone and remember the emergency numbers for the campus and surrounding area.
- All unusual incidents or suspicious-behaving individuals should be reported to the security department.

Campus Facilities and Grounds

Campus buildings and grounds are maintained by university maintenance personnel throughout the year with a concern for safety and security. The campus is well lit. Improvements to lighting and necessary repairs to parking lots, buildings and sidewalks are ongoing. Security personnel unlock and lock buildings daily at regularly scheduled times and are checked throughout the 24-hour period. Areas are unlocked at other times for meetings and events only after receipt of a written request by an authorized person. When security officers patrol ATSU facilities during locked or unlocked hours and find persons not authorized to be present, the individuals will be notified to leave or must obtain appropriate authorization for the officer on duty. Security expects to be notified when there is an unknown or suspicious person in an area. Only authorized personnel are allowed to enter locked facilities. Authorized personnel entering a building afterhours must notify the security officer of his/her presence and location in the building.

On-Campus Student Housing

ATSU Mesa Ariz. campus does not offer student housing at this time.

Missing Students who reside in Off Campus Housing

A student in residence may be considered missing under a variety of circumstances. These circumstances may include but are not limited to the student being overdue in reaching a specific location, on or off campus, past their expected arrival time; concerns for safety based on prior knowledge of mental or physical health issues or other extenuating life circumstances; and/or additional factors that lead university staff to believe that the student is missing, and a check of his/her residence supports that determination. ATSU Mesa campus does not require a 24-hour waiting period to consider a student missing, and will initiate investigations through collaboration with Student Affairs and the department of security, if circumstances indicate the likelihood that someone is missing. This policy and coinciding protocols are guided by the Higher Education Opportunity Act, 20 U.S.C.S. § 1092; 42 U.S.C.S. §5579.

The Students are encouraged to submit, and update, their emergency contact information via the student portal’s (my.ATSU.edu) student information system (CampusVue). This database is accessible by Student Affairs personnel and select staff members within each academic program. It is the responsibility of the student to ensure that the contact information is up-to-date and accurate. If the student declines to give a confidential emergency contact, local law enforcement will still be notified when the student is deemed missing. The parents or guardian of missing students under the age of 18 or who are not emancipated will be notified.
To report a missing student, contact Student Affairs at 480.245.6267 or 480.219.6126 after hours/weekends, call the Assistant Vice President-Student Affairs at 480.415.6025, or the Department of Security office at 602.721.3247, or ATSU Switchboard, off campus phone 480.219.6001 on campus dial 0, and have ATSU security paged.

Annual Fire Safety Report for on-campus Student Housing

There is no student housing at ATSU Mesa campus at this time. The university facilities are equipped with a fire alarm system that is monitored by a fire alarm panel and addressable fire alarm system that is monitored by RCI Systems Inc. There are fire extinguishers strategically located in all facilities on campus for immediate access.

Emergency Response and Evacuation Procedures

ATSU has developed an Emergency Operations Plan that provides the basic structure and guidelines to cope with campus emergencies. The Emergency Preparedness Committee is responsible for developing, maintaining, and testing the plan on annually. Records of all drills/testing are kept in the ATSU security office and may be reviewed when requested. To request a review of the drill / testing records call at 480.219.6000.

ATSU has also developed a Critical Response Team that will respond to all campus emergencies. The Vice President of Operations, Director of Facilities, and Security Officer on duty initiates the notification of the Campus Emergency Response Team. In the event of a campus emergency, an alert will be given upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty, or staff.

Evacuation routes are posted throughout all campus buildings. Emergency procedures for the campus are included in Emergency Procedures pamphlets that are located throughout the campus and distributed to students and staff once a year. Additionally, all emergency procedures can be accessed at https://sites.google.com/a/atsu.edu/atsu-mesa-emergency-notification/?AuthEventSource=SSO.

Timely Warning Procedures

ATSU security will conduct a Campus Emergency Alert to immediately notify the campus community upon the confirmation of a significant emergency or dangerous situation involving an immediate threat to the health or safety of students, faculty, or staff. The Timely Warning Alerts provide details of the crime, description of the suspect (if known), date and time the bulletin was released, information on whom to contact about the investigation, crime prevention tips if necessary, and other relevant and important information. The alerts will be immediately distributed campus wide, through the warning plans, procedures, and alerts using a multilevel approach with various tools and technologies (text message, e-mail) available and appropriate for the situation. Anyone with information that warrants a timely warning should report the circumstances to the ATSU security department at 47. If no one is available in the security department, dial 0 from an on-campus phone.

In relation to the Clery Act, the following criteria will be addressed to determine if a Timely Warning/Crime Alert is to be issued:

1. Has the incident been reported to ATSU security, or local police agency?
2. Has the crime or incident been identified as a Clery Act crime?
3. Is the crime or incident considered to represent a serious or continuing threat to students, faculty, staff, or visitors?

Determining whether to issue a Timely Warning/Crime Alert for non-Clery Act crimes will be evaluated on a case-by-case basis taking into account the frequency of offense, likelihood for additional occurrence, continuing danger to the university community, and risk of compromising law enforcement efforts to resolve the case in a timely manner.

Timely Warning/Crime Alerts by email shall contain in the subject line the phrase “Crime Alert.” The body of the notification will include, but not limited to:

1. A short description of the crime or incident.
2. Time and date
3. Location
4. Reported offense
5. Weapon used (if any)
6. Suspect vehicle (if any)
7. Method of operation used to facilitate the crime.
8. Personal safety information and / or crime prevention tips.

The notification posted on the ATSU Emergency Notification website will include any suspect information that is not included in the campus email alert.
