Community Campus Frequently Asked Questions

1) Cost of Living
Most of the second years (including me) live somewhere in Park Slope, which is a nice safe neighborhood to love. I live with a roommate, have a two bedroom apartment and paying $1550 total ($775 per person). That’s on the cheaper end of the spectrum for Park Slope. The average for a two bedroom is probably around $2100. A couple people live in Bay Ridge, which I believe has cheaper options for living without compromising the “niceness” of the neighborhood.
